

Practice Project: Validation of an Email ID

Screenshot output of Email Validation:

A screenshot of the Eclipse IDE's console window. The title bar of the console tab reads "Console x". The console output shows the following text: "<terminated> EmailValidation [Java Application] C:\Users\Dell\p2\pool\plugins\org.eclipse.justj.openjdk.hotspot.jre.full.v...". Below this, a prompt "Enter an email ID to search for:" is followed by the user input "emp1@Company.com" on the next line. The final line of output is "emp1@Company.com was found in the array.".

```
<terminated> EmailValidation [Java Application] C:\Users\Dell\p2\pool\plugins\org.eclipse.justj.openjdk.hotspot.jre.full.v...
Enter an email ID to search for:
emp1@Company.com
emp1@Company.com was found in the array.
```
